Projects

Dream Forge (Buy & sell real estate properties)

[Client](#) | [Server](#) | [Demo](#)

email: abc@gmail.com & password: 123456@aA (agent info)

email: admin@admin.com & password: 123456@aA (admin info)

- Users, agents, and admins have distinct roles with specific functionalities, ensuring a personalized experience based on their roles.
- Agents can add, update, and delete properties, as well as manage offers and sold properties.
- Admins have control over property verification, user management, and reviews across the platform.
- Users can securely make payments for purchased properties using Stripe or other payment methods.
- Admins have the power to verify or reject properties submitted by agents, controlling the quality and legitimacy of listed properties.
- The verification status is prominently displayed, giving users confidence in the authenticity of the properties they view.
- Admins can track and manage payment transactions, ensuring a secure and transparent financial process.

Technologies: JavaScript, React, Tailwind CSS, Daisy UI, Firebase, Node.js, Express.js, MongoDB, Mongoose.

Food Unity (Community Food Sharing and Surplus Reduction Platform)

[Client](#) | [Server](#) | [Demo](#)

- Contribute surplus food with a simple form, showcasing details and images.
- Engage with others by viewing available food items and responding to donation requests.
- Edit or remove donated items conveniently through the "Manage My Foods" section.
- Easily request specific food items, connecting with donors for pickups.
- Discover high-quantity options in the curated "Featured Foods" section on the homepage.
- Find food items quickly with search and sorting features based on expiration dates.
- Monitor and manage donation requests, updating statuses for effective communication.
- Enjoy personalized profiles with names, photos, and records of contributions and requests.
- Flexibility to cancel or modify food requests based on changing needs.
- Stay informed with non-intrusive toast notifications for successful actions, enhancing user awareness

Technologies: JavaScript, React, Tailwind CSS, Daisy UI, Firebase, Node.js, Express.js, MongoDB, Framer Motion.

Education

Eco Pathshala & College, Thakurgaon, Bangladesh

Higher Secondary Certificate (HSC) – 2022
